

CC#5

Circular Letter No. 106.

May 12, 1915.

To Supervising Principals.

Gentlemen:-

Under separate cover you are being sent the questions, both oral and written, for the Spanish examinations to be held on Saturday, May 15.

The oral examinations will consist of ten questions and the answers to each question should be marked on a basis of 5%; thus the highest possible mark in the oral examinations would be 50%. The papers of the written examinations should be forwarded immediately, uncorrected, to this office. In a separate report, in the form of a letter, notify us concerning the oral marks obtained by each candidate; that is, the average received by each candidate; not the mark for each separate questions. Be sure to state after the name of each candidate which examination was taken, whether the elementary or the advanced.

The oral examinations should be given to each teacher privately and not in the presence of the other candidates. When a candidate has finished with the oral examinations he should not be allowed to communicate with other candidates before they have been examined.

Yours very truly,

E.M. BAINTE  
Commissioner of Education
